Re: Walton's Farm Site,  
Administrative Order No. II-CERCLA-20

Dear Mr. Terril:

EPA has received PPG's proposed sampling and analysis program for the stones remaining at the Walton Farm site in Delran, New Jersey. After reviewing the proposal, I have found the outlined sampling and analysis procedures to be adequate for determining the appropriate disposition of the stones.

In order for EPA to provide oversight of PPG's sampling efforts, please contact me at least one week prior to the scheduled sampling event.

Should you have any questions regarding this letter or any other matters pertaining to the Walton Farm site, please do not hesitate to contact me at (908) 321-4345.

Sincerely,

Donald R. Graham,  
On-Scene Coordinator
